ARCHITECTURAL CONNECTIVITY

KEEPING TOTAL ENVIRONMENT CONNECTED

In the Room or Down the Hall, Always Maintain a Clean, Clear Connection

HydraPort Connection Ports, modules, grommets and accessories are all essential components of a unified Architectural Connectivity system. Administrators, presenters and users all need a way to connect their presentation devices and AV equipment to interface with the permanently installed room equipment in boardrooms, conference rooms, meeting rooms and auditoriums. These environment accessories offer them a way to connect in a clean, concise and professional manner.

HPX-600

6 Module Connection Ports

Black Anodized	(FG560-01-BL)
Brushed Aluminum	(FG560-01-SL)

OVERVIEW

With space for up to six modules, the HPX-600 allows you to elegantly connect mobile devices at your desk, lectern or table using the most beautiful connectivity system ever developed. This sleek solution supports pass-through connectors for audio, video, Ethernet, USB and power plus control. The modular assembly makes it easy to change connections as needs evolve, and makes HydraPort® future proof for connection types that have yet to be developed. The elegant, flush-mount design conveniently opens in both directions providing a clean, unobtrusive look.

COMMON APPLICATIONS

The HPX-600 is perfect for conference rooms, classrooms or auditoriums where users need a simple, convenient way to connect devices power, Ethernet, USB, audio, and video.

FEATURES

- **Modular Design is Future Proof** – Features an assembly with the flexibility to change the modules to meet current and future needs
- **Variety of Sizes for All Types of Applications** – The HPX-600 accommodates six module units. Use the HydraPort Connection Preview Application to determine the size needed, based on the connection modules desired
- **Elegant and Unobtrusive** – Flush-mount design installs cleanly into a lectern or table and the lid conveniently opens in both directions providing a clean look
- **No Electrician Required** – HydraPort power modules can be connected directly to a wall or floor outlet eliminating the need for an electrician
- **Control The Room** – Add Metreau® or Novara® Keypad modules to control AV devices, lighting or shades as well as to initiate pre-programmed events
- **Anodized Aluminum** – These stylish, low profile connectivity ports have the same contemporary brushed aluminum enclosure as the higher-end office furniture manufacturers at the same price as most competitive painted metal models

HPX-1600

16 Module Retractable Connection Ports

Black	US Version	(FG550-01-BL)
Silver	US Version	(FG550-01-SL)
Black	International Version	(FG550-BL)
Silver	International Version	(FG550-SL)

OVERVIEW

HydraPort® is the first completely modular, retractable cable connection system built to accommodate the diverse connection needs of conference and meeting room visitors. This sleek, elegant, ergonomic design features a retractable base station that smoothly rises to expose device connections and recedes back down and conceals the typical cable mess that can distract from the business at hand. All this while each cable stays connected.

COMMON APPLICATION

Boardrooms, conference rooms, meeting rooms or auditoriums where equipment is permanently installed in the room and users must connect to that equipment from a conference table or lectern.

WHAT'S NEW

- Digital Video pass-through modules – individual HDMI and DVI modules
- RGB+A pass-through module – includes integrated RGB and Audio cables
- Power Module compatible with India power plugs

FEATURES

- **Completely Two-Faced** – To provide easy access, HydraPort is double-sided and each side accommodates 8 AV or Data modules, 4 Power modules, 2 Keypad modules or any combination of these.
- **More Ways To Enovate** – HydraPort incorporates the Enova® UPX Transmitters behind the scenes to support the Enova DVX and AVX Presentation Switchers.
- **Elegant and Unassuming** – The cable ring allows HydraPort to retract flush with the table once connections have been made without crimping or binding any connected cables. The typical wire mess is concealed.
- **No Electrician Required** – The integrated IEC power inlet assembly easily connects to four different power modules providing international power support for virtually every country.

SPECIFICATIONS

DIMENSIONS (HWD)

- Max above mounting surface: 9 9/16" x 10 9/16" x 4 1/2" (243mm x 268mm x 115mm)
- Max below mounting surface: 15 1/16" x 11 9/16" x 6 1/4" (383mm x 293mm x 159mm)
- Mounting surface footprint: 10 9/16" x 4 1/2" (268mm x 115mm)
- Min. mounting surface thickness: 3/4" (19mm)
- Max mounting surface thickness: 2" (50mm)
- Table Cutout Dimensions: Use Router Guide

NUMBER OF MODULES SUPPORTED

- Module sizes are provided in "HydraPort Units". Modules range in size from 1/2 to 4 1/2 HydraPort Units.
- Each of the two sides has room for 9 total "HydraPort Units" meaning that each side can support up to 9 total single-space modules
- It is generally recommended to install a single-space blank as the top-most module on each side for visibility, leaving space for 8 single-space modules (8 HydraPort Units). These top-most blanks are included with the chassis.
- When using modules with a decor-style adapter plate as the top-most module, the single-space blank at the top can be omitted.
- When using a power module that requires 2.5 module spaces, the single-space blank at the top can be replaced with a half-space blank.

HPX-AC-HSP

HydraPort Spring Kit for Heavy Loads

(FG559-42)

OVERVIEW

The HPX-AC-HSP Spring Kit for Heavy Loads is designed to improve the performance of HydraPort HPX-1600 Lift/Retract Mechanism when the unit is heavily loaded.

- Heavy loads may occur when all of the available module spaces of the HPX-1600 are populated or when multiple heavy cables are included in the service loop of the HPX-1600
- The HPX-AC-HSP provides roughly twice the lifting force of the standard springs shipped with the HPX-1600
- Installation of the HPX-AC-HSP will increase the force required by the user to press the HPX-1600 into its retracted position
